

## INDEX TO CARROLL'S NY NOTES

by Chuck Porter - update of 19 June 2013

**This index** gives the page locations of New York (and a few West Virginia) cave maps in the notebooks of Robert W. Carroll, Jr. Bob usually describes the cave—and charts its location—on the same page or one or two pages before or after the cave map page listed here. Snow and ice caves, and non-cavernous karst features are omitted from this index.

See Steve Higham's separate index to Bob Carroll's maps of New England caves.

Below are the pages with cave exploration coverage in Bob's notebooks. Other notebook pages contain summaries of previous explorations, plans for future activities, and various personal observations.
